**I** grew up on the east coast and have made my home here in the Pacific Northwest for the past 25 years. In 1974 during my senior year of High School in Norfolk, VA, I received a gifted student grant to take a summer college art class on B&W photography. For my HS graduation present my mother bought me a used \$35 range-finder camera with a fixed lens. I have been making photographs ever since. Since 2011 I have been shooting almost exclusively with digital cameras. My primary photographic interest is the natural landscape. I also enjoy shooting the urban landscape which is the focus of the images I am showing here.

These images are a mix of traditional darkroom prints, digital pigment prints and photo polymer gravures (a printmaking process that results in an image made with ink on paper).

I am a WSU Vancouver graduate and I have been employed as the Fine Arts Tech here at WSU Vancouver since 2011.

I hope you enjoy the work and if you have any questions please feel free to email me or stop by VMCM 103/107 to see me.
